

The Society of Settlement Planners

The Society of Settlement Planners (SSP) was formed by plaintiff-loyal structured settlement specialists with the common interest of promoting and preserving the right of the injured plaintiff to choose their own advisor and the financial providers that will be legally and financially responsible to them for the rest of their lives. As a Founding Professional Member and Founding Board of Director, Chuck Derenne of Premier Settlement Services, Inc. invites you to consider joining the Society of Settlement Planners as an Associate Member. Your \$250 annual dues support our political and legislative efforts to further the SSP's Mission, which is:

To assist injury victims, claimants and attorneys in resolving their legal financial claims, and to advocate the injury victim's right to choose settlement planning advisors and financial and guarantee providers.
